

Essential Artifact Submission Form

Name: June Arthur

ID: 101689

Class: 0716 CLD 210 - XO1 Cultural Diversity

TITLE OF REFLECTION: Buddhism

BSN Program Student Learning Outcomes

Check indicators demonstrated through your artifact.

☐ PSLO1 - Synthesize knowledge from the sciences and humanities as a foundation for the practice of professional nursing across multiple contexts.

☐ PSLO2 - Demonstrate leadership in improving organizations and systems to promote culturally competent quality care and patient safety.

☐ PSLO3 - Integrate patient/family preferences with scholarly research and systematic inquiry to deliver evidenced based competent nursing care.

☒ PSLO4 - Manage data to monitor the outcomes of care processes and use improvement methods to continuously improve the quality and safety of health care systems.

☐ PSLO5 - Apply leadership principles to effect change in health care and health policy at the local, state, national and international levels.

☐ PSLO6 - Implement health promotion and disease prevention strategies at the individual and population level to improve health of diverse populations across the lifespan and across the continuum of healthcare environments.

☒ PSLO7 - Integrate professional values of altruism, autonomy, human dignity, integrity, and social justice to the discipline of nursing.

☒ PSLO8 - Demonstrate continuous cultural competency development in the delivery of holistic caring to patients, including individuals, families, groups, communities, and populations across the lifespan and across the continuum of healthcare environments.

☐ PSLO9 - Improve patient health outcomes among diverse populations through the promotion of effective inter-professional and collaboration communication.

General Education Competencies

Check indicators demonstrated through your artifact.

☒ Cultural Competence: Learners will demonstrate an understanding of philosophies that represent social, emotional, and behavioral attributes of society and individuals.

☒ Communication: Learners will demonstrate an understanding of the views of others and communicate in a professional manner.

☐ Critical Thinking: Learners will demonstrate the ability to draw conclusions based on evidence and consider prior knowledge, context and perspectives in predicting implications or consequences.

☐ Information Technology: Learners will demonstrate the ability to use computers, software applications, databases, and other technologies to achieve a variety of academic and work-related goals.

☐ Quantitative Literacy: Learners will demonstrate the ability to report, calculate, and analyze quantitative data.

☐ Scientific Literacy: Learners will gain the ability to read with understanding scientific content and engage in a dialogue about scientific issues.

Essential I: Liberal Education for Baccalaureate Generalist Nursing Practice.

Check indicators demonstrated through your artifact.

☐ Physical, natural, life science, math, social sciences.

☐ Fine art, performing art, humanities.

**Essential II: Basic Organizational and Systems Leadership for Quality Care and Patient Safety.
Check indicators demonstrated through your artifact.**

- ☐ Demonstrate knowledge and skills in leadership.
- ☐ Describe quality improvement.
- ☐ Advocate for patient safety.
- ☐ Demonstrate caring, effective communication with all constituents.
- ☐ Describe and navigate in complex organizational systems.

**Essential III: Scholarship for Evidence Based Practice (Professional nursing practice is grounded in the translation of current evidence into one's practice).
Check indicators demonstrated through your artifact.**

- ☐ Provide evidence-based nursing interventions.
- ☐ Delineate interrelationships among theory, practice, research.
- ☐ Describe the elements of the research process and application.
- ☐ Advocate for protection of human subjects.
- ☐ Evaluate credibility of information.
- ☐ Participate in retrieval, appraisal, and synthesis of evidence.

**Essential IV:: Information Management and Application of Patient Care Technology
Check indicators demonstrated through your artifact.**

- ☐ Understand information management and the impact upon patient outcomes.
- ☐ Employ a variety of patient care technologies.
- ☐ Demonstrate effectiveness in telecommunication technologies.
- ☐ Apply decision making tools to support safe practice.
- ☐ Use CIS systems to document interventions and improve patient outcomes.
- ☐ Evaluate data to inform the delivery of care.
- ☐ Maintain ethical standards related to data and patient rights.
- ☐ Participate in evaluation of information systems.

**Essential V: Health Care Policy, Finance, and Regulatory Environments
Check indicators demonstrated through your artifact.**

- ☐ Understand healthcare policies and financial implications.
- ☐ Explore regulatory environments and the impact on healthcare.
- ☐ Understand global trends.
- ☐ Be familiar with legislative and regulatory process in healthcare.
- ☐ Explore socio-cultural, economic, legal influence on practice.
- ☐ Describe role of regulatory agencies and impact on patient outcome, quality, and practice.
- ☐ Discuss healthcare policy related to access, equity, affordability, and social justice.
- ☐ Use an ethical framework to evaluate healthcare policies.
- ☐ Participate in political processes that influence healthcare policy.

**Essential VI: Interprofessional Communication and Collaboration for Improving Patient Health Care Outcomes
Check indicators demonstrated through your artifact.**

- ☒ Understand multi-disciplinary roles of the healthcare team.
- ☐ Employ effective communication to resolve conflict, foster teamwork.
- ☐ Advocate for high quality care as a member of the healthcare team.

**Essential VII: Clinical Prevention and Population Health
Check indicators demonstrated through your artifact.**

- ☐ Assess protective and predictive factors, including genetics, which influence health.
- ☒ Assess health from a holistic perspective, including values, attitudes of families, groups, communities and populations.
- ☐ Promote health, manage illness.
- ☐ Use EBP to guide health teaching, screening, and counseling, throughout lifespan.
- ☐ Assess health, healthcare, and emergency preparedness needs of a defined population.
- ☐ Develop an intervention plan that considers health, resources, prevention of illness, injury, disability, and premature death.
- ☐ Participate in prevention and population-focused interventions related to effectiveness, efficiency, cost-effectiveness, and equity.
- ☒ Advocate for social justice, including health of vulnerable populations.

Essential VIII: Professionalism and Professional Values**Check indicators demonstrated through your artifact.**

- ☒ Demonstrate professional standards of moral, ethical, and legal conduct.
- ☐ Exhibit accountability, role modeling professional values, professionalism, and integrity.
- ☐ Identify personal, professional, and environmental risks that impact personal and professional choices.
- ☐ Examine practice for promotion of social justice.
- ☒ Articulate value of professional growth and development and lifelong learning.
- ☒ Protect patient privacy and confidentiality.

Essential IX: Baccalaureate Generalist Nursing Practice**Check indicators demonstrated through your artifact.**

- ☒ Demonstrate caring and health techniques that promote a therapeutic nurse-patient relationship.
- ☒ Conduct assessment across populations and lifespan.
- ☐ Recognize constructs of genetics on health, prevention, screening, diagnostics, prognostics, treat.
- ☐ Provide holistic care across the lifespan.
- ☒ Communicate effectively with patients, families and healthcare team.
- ☐ Provide compassionate, patient-centered, evidence-based care.
- ☐ Provide nursing care based on evidence that contributes to safe and high quality patient outcomes.

Reflection

1. Discuss at least one standard from within each of the three standard subsets

1. Program Student Learning Outcomes

PSLO7&8: Human dignity and integrity, and social justice plays an important role in giving cultural diversity. Having cultural competency will help in understanding the needs of others and giving quality care.

2. General Education Competencies

Cultural competence and Communication. This artifact exposed me to a different set of culture's view and helped me understand some of their ways. This in turn has put emphasis on being diverse with other cultures and communicate in a respective and understanding way. Be considerate of their needs or ways of life.

3. Baccalaureate Essentials

Assess health from a holistic perspective, including values, attitudes of families, groups, communities and populations. No matter what sex, sexual orientation, religion, nationality they are, they are first a human. In that aspect I as a nurse should find out if they have any want or needs that are needed to give them proper care. Keeping in mind that our society is full of diverse cultures people their preference should be taken in consideration, and may not seem important to me, may just be a very importance part of their ritual.

2. Relate at least two class activities to the development of this artifact (readings, case studies, lecture content etc.)

The videos, Limiting Religious Discrimination in our Society and Workplace, also A Discussion on Religious Discrimination and Islamophobia, along with Dr. Waggoner's Religion and Spirituality presentation, all helped with the bases of the development of my artifact.

3. Explain how you were challenged in creating the artifact.

I was challenged in this artifact by the fact I was not very knowledgeable on the different form of religion. I found this to be extremely interesting and would like to know more in-depth about religions

4. State what skills you now have as a result of participating in the artifact development process.

The skills of understanding the diversity and tolerance that is needed to treat every individual with respect and to increase awareness on religious diversity.

5. Describe the impact of future actions the artifact has inflicted on you, both in upcoming learning at Galen and in your future role as a BSN nurse.

The impact this has on me is not to be judgmental of a person because of how they are and to stick up for those that others pass judgment on for lack of understanding or knowledge. We are all of the human race and desire the same things in relationships, both personal and in society.
